# VOLUNTEER SPOTLIGHT

## **Ken Wilks**

**Meet Ken!**

Ken has been a volunteer with Habitat for 3 years. He started in 2015 volunteering for the Can Recycling Committee. He sets out can collection bins at Binder Lake Ball Fields to collect aluminum cans during ball seasons. Ken likes this type of volunteering because it allows him to work outside. This gives him the opportunity to help the environment by keeping cans out of the landfill and participate in an activity that generates funds to help build Habitat houses. The Can Committee has already sponsored one Habitat home in Jefferson City and is working toward the second home.

Ken says he has always respected the work Habitat for Humanity has done since its inception. After retirement, he wanted to do volunteer work and a great opportunity became available for him to become involved.

**Thank you Ken for everything you do for RCHF!**
